**TABLE 6.** Statistical comparison of geographic range size in taxonomic groups by sequence. (1) Sequence C1: Edenian; (2) Sequence C2: early Maysvillian; (3) Sequence C3: late Maysvillian; (4) Sequence C4: early Richmondian; (5) Sequence C5: middle Richmondian; (6) Sequence C6: late Richmondian. Analyses were conducted by defining Strophomena species as either native or invasive as indicated in text. Blocks color coded by statistical significance.
