

**Figure 8.1\_F.** Printable flat series of images selected from the avi animation shown in Figure 8.1. Spin-increments are about 30° in anti-clockwise direction. For decomposing video files of Figures 8 and 9 into sequences of still images the software VirtualDub 1.9.9, a video capture and processing utility for Windows platforms was applied. VirtualDub is in the public domain and is available from <http://www.virtualdub.org/>
